Board Member Foreword

I am confident that we have identified the right strategic priorities for our Future Farming, Education, Vocational Training, Investment, Integration and Innovation and these have delivered growth and record profit for the community of Arunachal Pradesh. By focusing on these priorities Bethel will continue to grow and deliver stakeholders for value of their trust and support.

Bethel focuses on developing the potential of girls to drive long lasting equitable changes. We strategically emphasize on promoting inclusive education, gender equitable and sustainable livelihood opportunities.

People fail to realize that counselling is a treatment without physical medicine. But things are changing and there is hope. The last few years have seen a certain change and Heads of the education institutions see the necessity to impart this knowledge to students.

Knowledge is power, and with this knowledge the younger generation will have the power and confidence to protect them.

Finally, I would like to thank all the staff members of Bethel who stood with us to provide all support and to show their excellence in work.

Awareness on Child Labour

Millions of children around the world are trapped in child labour, depriving them of their childhood, their health and education, and condemning them to a life of poverty and want. Of course, there are works that children do to help their families in ways that are neither harmful nor exploitative. But many children are stuck in unacceptable work for children – a serious violation of their rights.

Child labour is preventable, not inevitable. BETHEL believes that effective action against child labour requires children to be placed squarely at the centre of programmes designed to protect children’s rights. For this purpose, we have Conducted awareness program on

Child Labour at Tinsukia Assam during this occasion we have distributed free books among children.
